

# Wetland Plants: Know'em and Grow'em

A course for educators

**August 8th - 10th, 2007**

\$75 includes: 3 days of activities, your very own waterbox to take home, a sampling of wetland plants and seeds, Know'em and Grow'em course guide, lodging, food, & more!

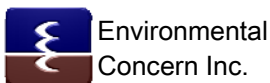

*"It had everything I  
was looking for."*

To register visit  
[www.wetland.org](http://www.wetland.org)

or contact  
Marianne Muth at  
Environmental Concern:  
410-745-9620 or  
[wow@wetland.org](mailto:wow@wetland.org)

Brought to you and supported by:

## Day 1

Get up close and personal with native wetland plants. Learn about their unique adaptations and identification techniques.

## Day 2

Sharpen your plant identification skills in the field; and learn fun activities you can use with your students.

## Day 3

Head to the nation's first wholesale wetland plant nursery to build a waterbox and learn the skills necessary to grow native plants at your school.

\*Evening activities include canoeing, make and take wetland crafts and Nutria 101\*

*"The practicality of  
the information,  
and hands-on  
experiences,  
combined with the  
location of the  
program makes it  
unique."*
